"NICE AND BRIGHT INSIDE"

DAIRY BARN - MERRILL, WI

"We went with WeCover because of the bright environment. This past winter was one of the coldest and snowiest I've ever seen and the snow on our WeCover slid off the roof by itself. And since it's nice and bright inside, this made the long winter more tolerable."

- HANS

WeCover has redefined today's dairy barn. Producers are now able to offer their herds a natural environment year-round with bright, shadowless light and ventilation. Custom built for any size of operation, WeCover freespan dairy facilities are available up to 200 feet wide.
